

The image shows a screenshot of the Turbo C++ (TC) IDE. The top window displays a C program with the following code:

```
File Edit Run Compile Project Options Debug Break/watch
Line 7 Col 30 Insert Indent Tab Fill Unindent * E:2PM.C
#include<stdio.h>
#include<conio.h>
void main()
{
int a;
clrscr();
switch(a=(3+"I Like""ABCD"+4))
{
case 65: puts("Pooja Hegde");break;
case 66: puts("Jhanvi Kapoor");break;
case 67: puts("Kiara Advani");break;
case 68: puts("Deepika");break;
default: puts("All");
}
printf("a=%d",a);
getch();
}
```

The bottom window shows the output of the program:

```
Jhanvi Kapoor
a=66_
```

The Windows taskbar at the bottom shows the time as 2:27 PM on 08-Sep-23. An "Activate Windows" watermark is visible in the bottom right corner of both windows.

The image shows a screenshot of the Turbo C++ (TC) IDE. The top window displays a C program with the following code:

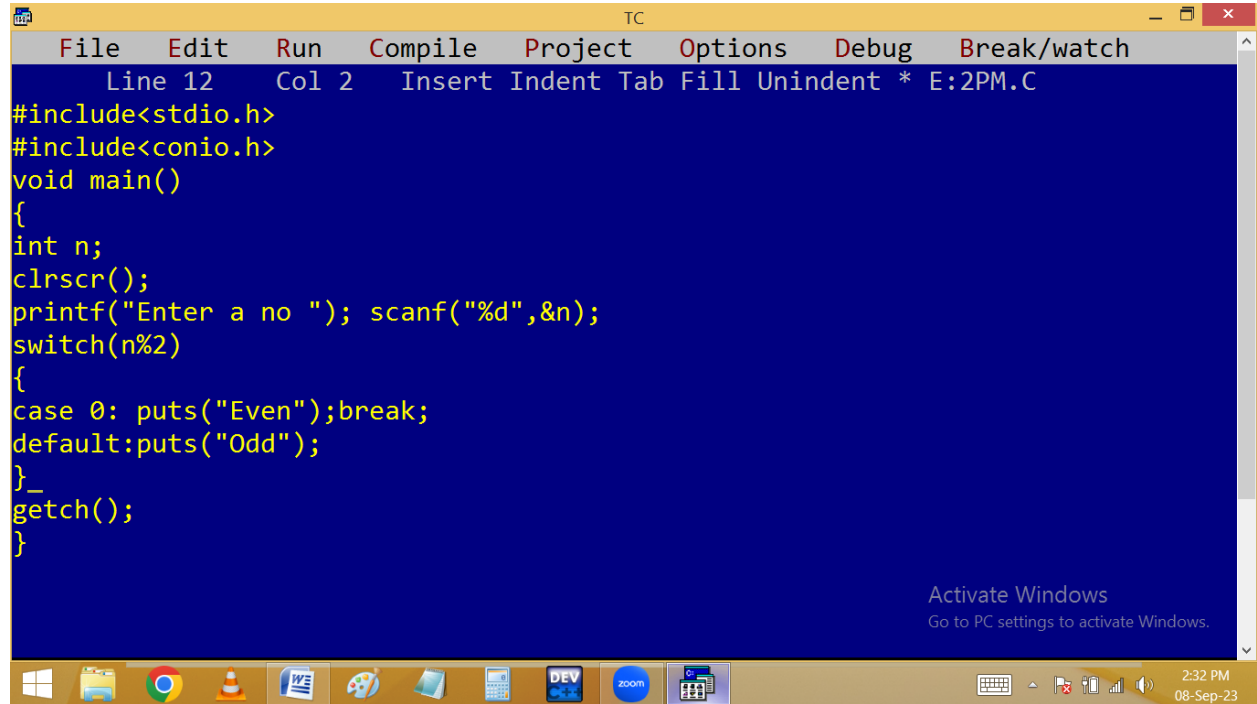

```
File Edit Run Compile Project Options Debug Break/watch
Line 13 Col 22 Insert Indent Tab Fill Unindent * E:2PM.C
#include<stdio.h>
#include<conio.h>
void main()
{
int a=65;
clrscr();
switch(a++||++a||a--||--a)
{
case 65: puts("Pooja Hegde");break;
case 66: puts("Jhanvi Kapoor");break;
case 67: puts("Kiara Advani");break;
case 68: puts("Deepika");break;
default: puts("All");_
}
printf("a=%d",a);
getch();
}
```

The bottom window shows the output of the program:

```
All
a=66_
```

The Windows taskbar at the bottom shows the time as 2:29 PM on 08-Sep-23. An "Activate Windows" watermark is visible in the bottom right corner of both windows.

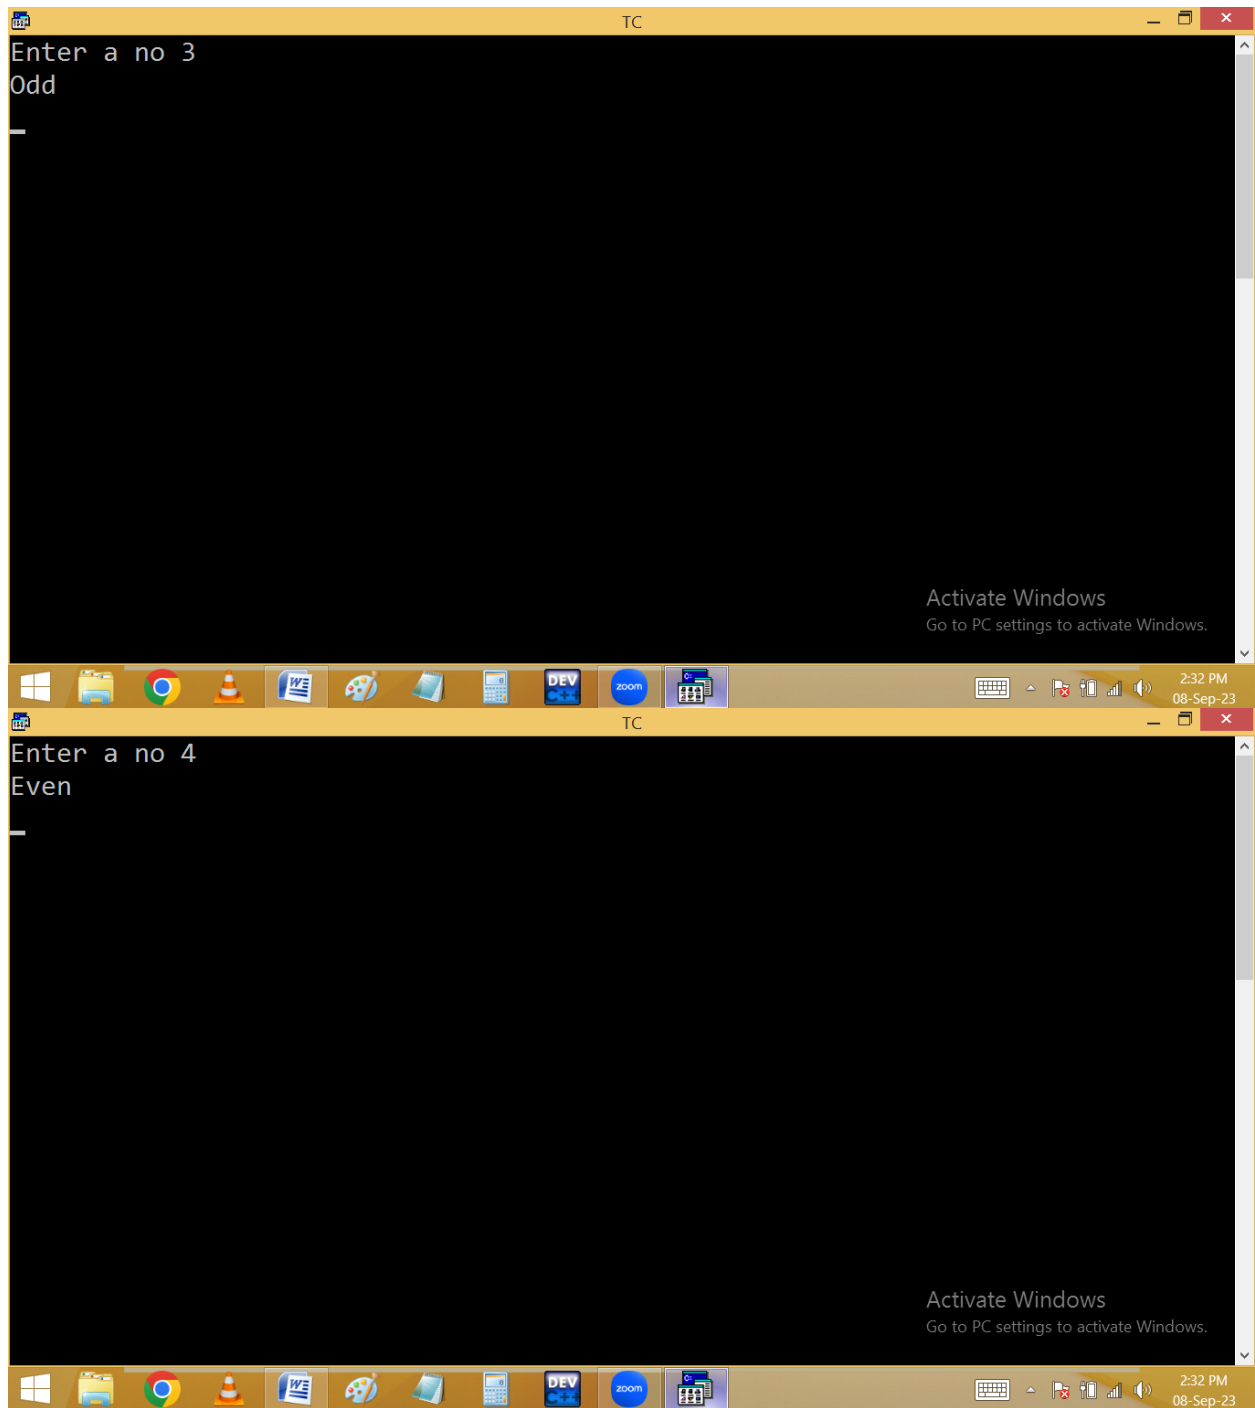

Eg. Finding even/odd using switch:

The screenshot shows the Turbo C++ (TC) IDE interface. The menu bar includes File, Edit, Run, Compile, Project, Options, Debug, and Break/watch. The status bar at the top indicates 'Line 12 Col 2' and 'Insert Indent Tab Fill Unindent * E:2PM.C'. The main editing area has a dark blue background with yellow text. The code is as follows:

```
#include<stdio.h>
#include<conio.h>
void main()
{
    int n;
    clrscr();
    printf("Enter a no "); scanf("%d",&n);
    switch(n%2)
    {
        case 0: puts("Even");break;
        default:puts("Odd");
    }
    getch();
}
```

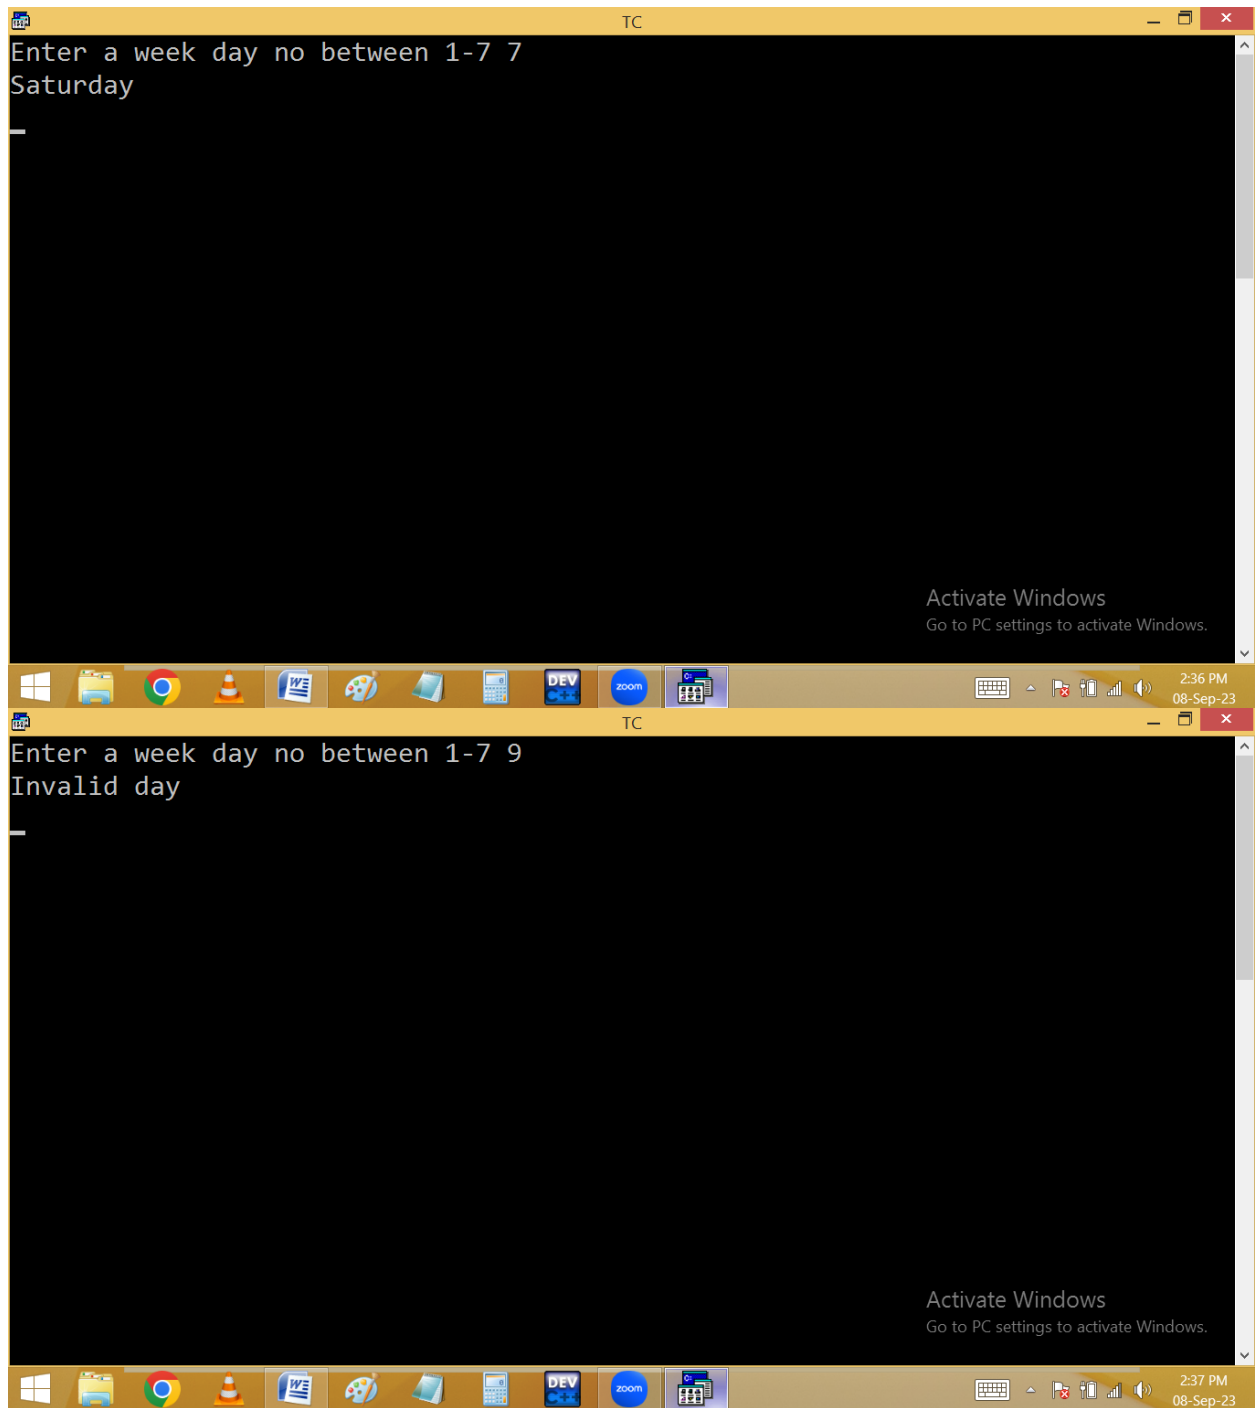

An 'Activate Windows' watermark is visible in the bottom right corner of the code editor, with the text 'Go to PC settings to activate Windows.' The Windows taskbar at the bottom shows various application icons, including File Explorer, Google Chrome, VLC media player, Word, Paint, Calculator, DEV C++, Zoom, and a folder icon. The system clock in the bottom right corner displays '2:32 PM' and '08-Sep-23'.

Eg. Finding week day name using switch:

```
TC
#include<stdio.h>
#include<conio.h>
void main()
{
int n; clrscr();
printf("Enter a week day no between 1-7 "); scanf("%d",&n);
switch(n)
{
case 1: puts("Sunday");break;
case 2: puts("Monday");break;
case 3: puts("Tuesday");break;
case 4: puts("Wednesday");break;
case 5: puts("Thursday");break;
case 6: puts("Friday");break;
case 7: puts("Saturday");break;
default:puts("Invalid day");
}
getch();
}
Activate Windows
Go to PC settings to activate Windows.

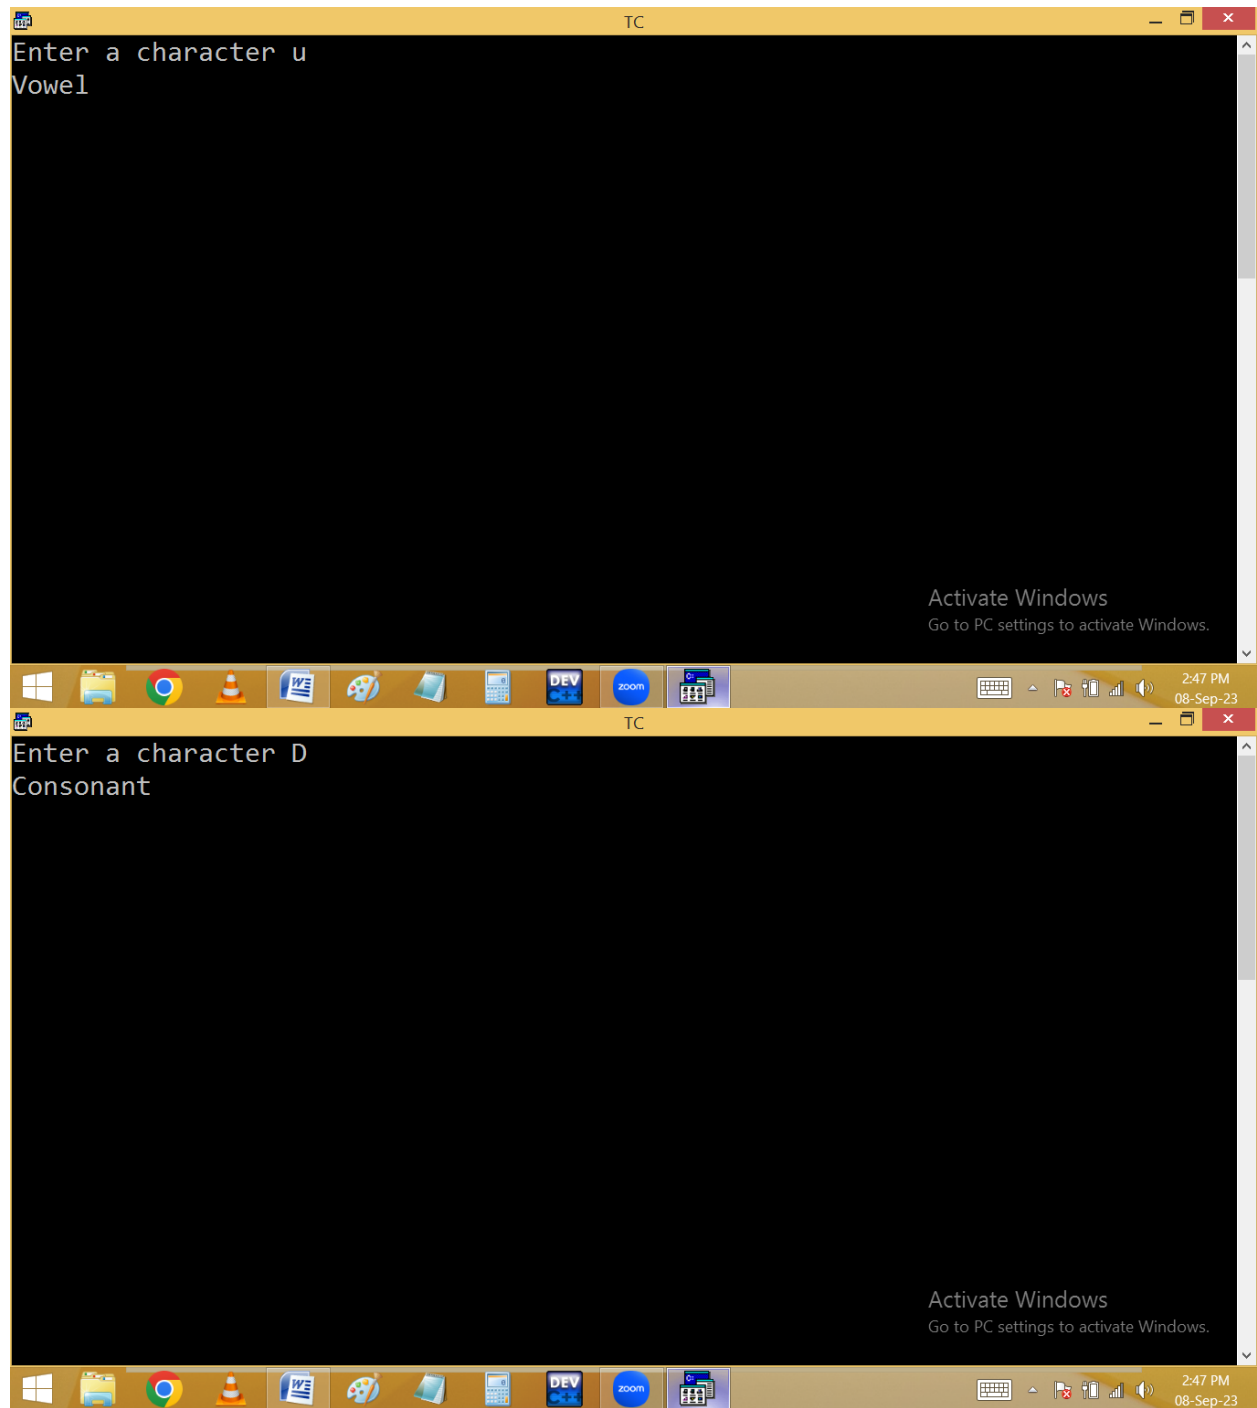

TC
Enter a week day no between 1-7 6
Friday
Activate Windows
Go to PC settings to activate Windows.
```

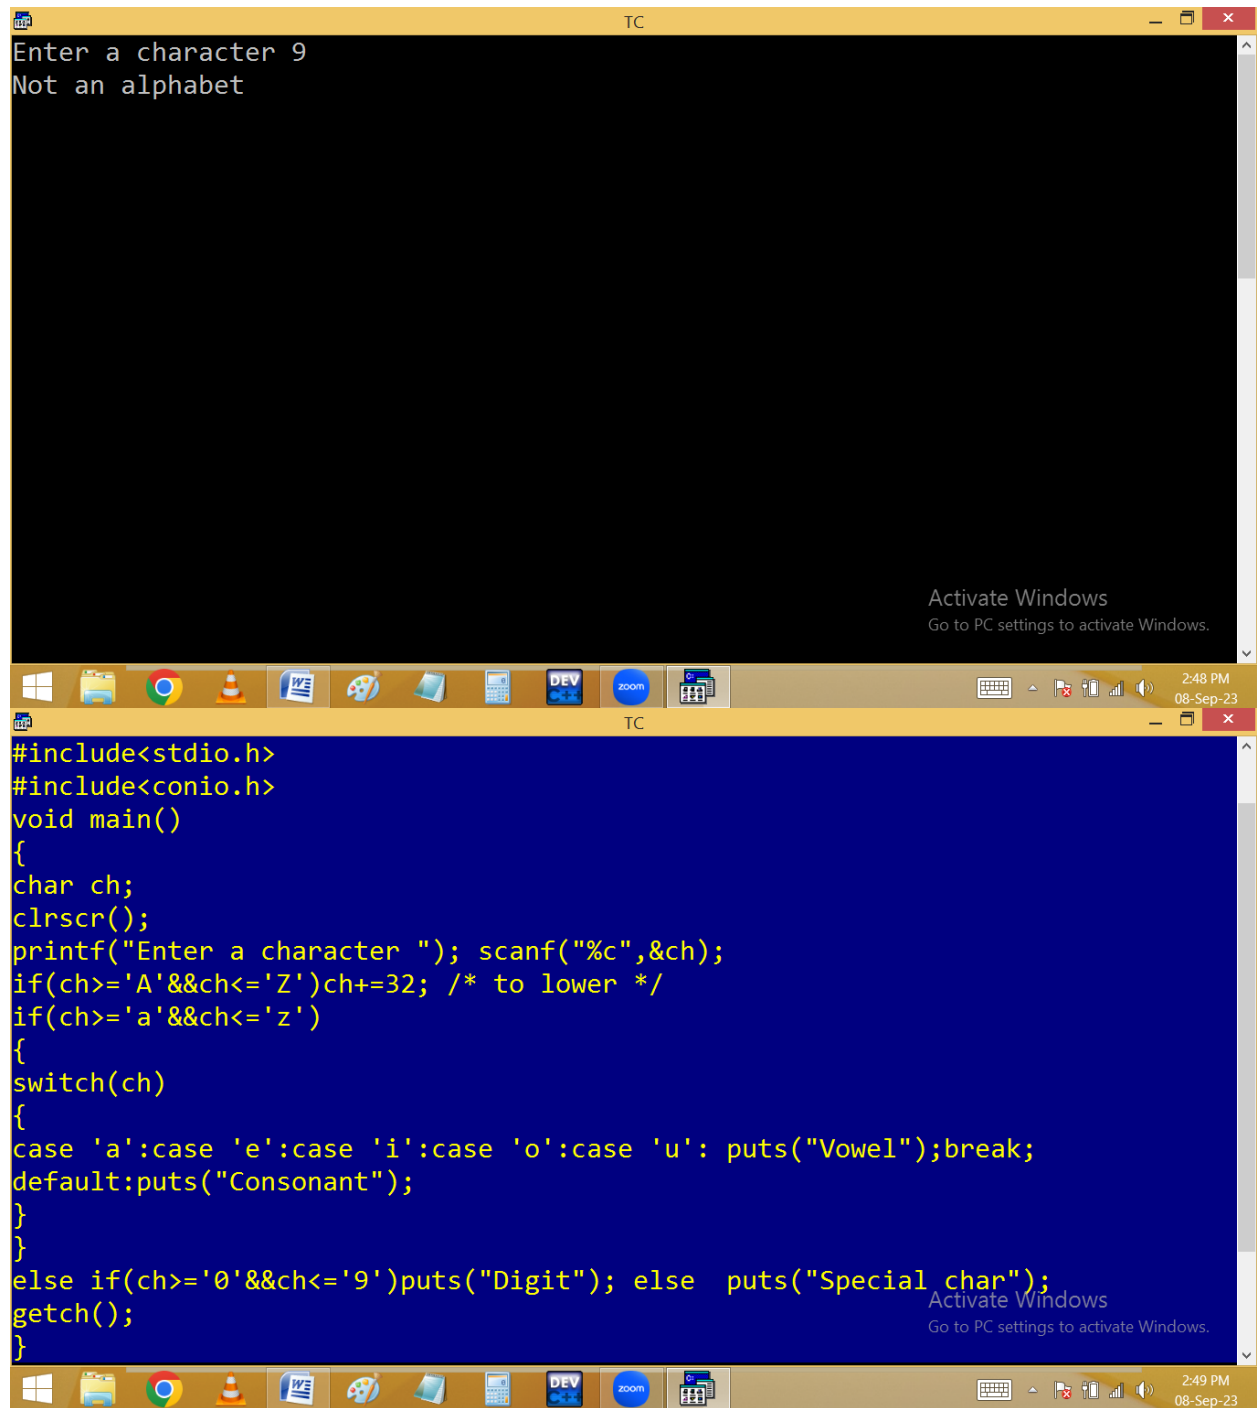

Eg. Finding vowel / consonant using switch:

```
TC
#include<stdio.h>
#include<conio.h>
void main()
{
char ch;
clrscr();
printf("Enter a character "); scanf("%c",&ch);
if(ch>='A'&&ch<='Z')ch+=32; /* to lower */
if(ch>='a'&&ch<='z')
{
switch(ch)
{
case 'a':case 'e':case 'i':case 'o':case 'u': puts("Vowel");break;
default:puts("Consonant");
}
}
else puts("Not an alphabet");
getch();
}
Activate Windows
Go to PC settings to activate Windows.

TC
Enter a character A
Vowel
Activate Windows
Go to PC settings to activate Windows.
```

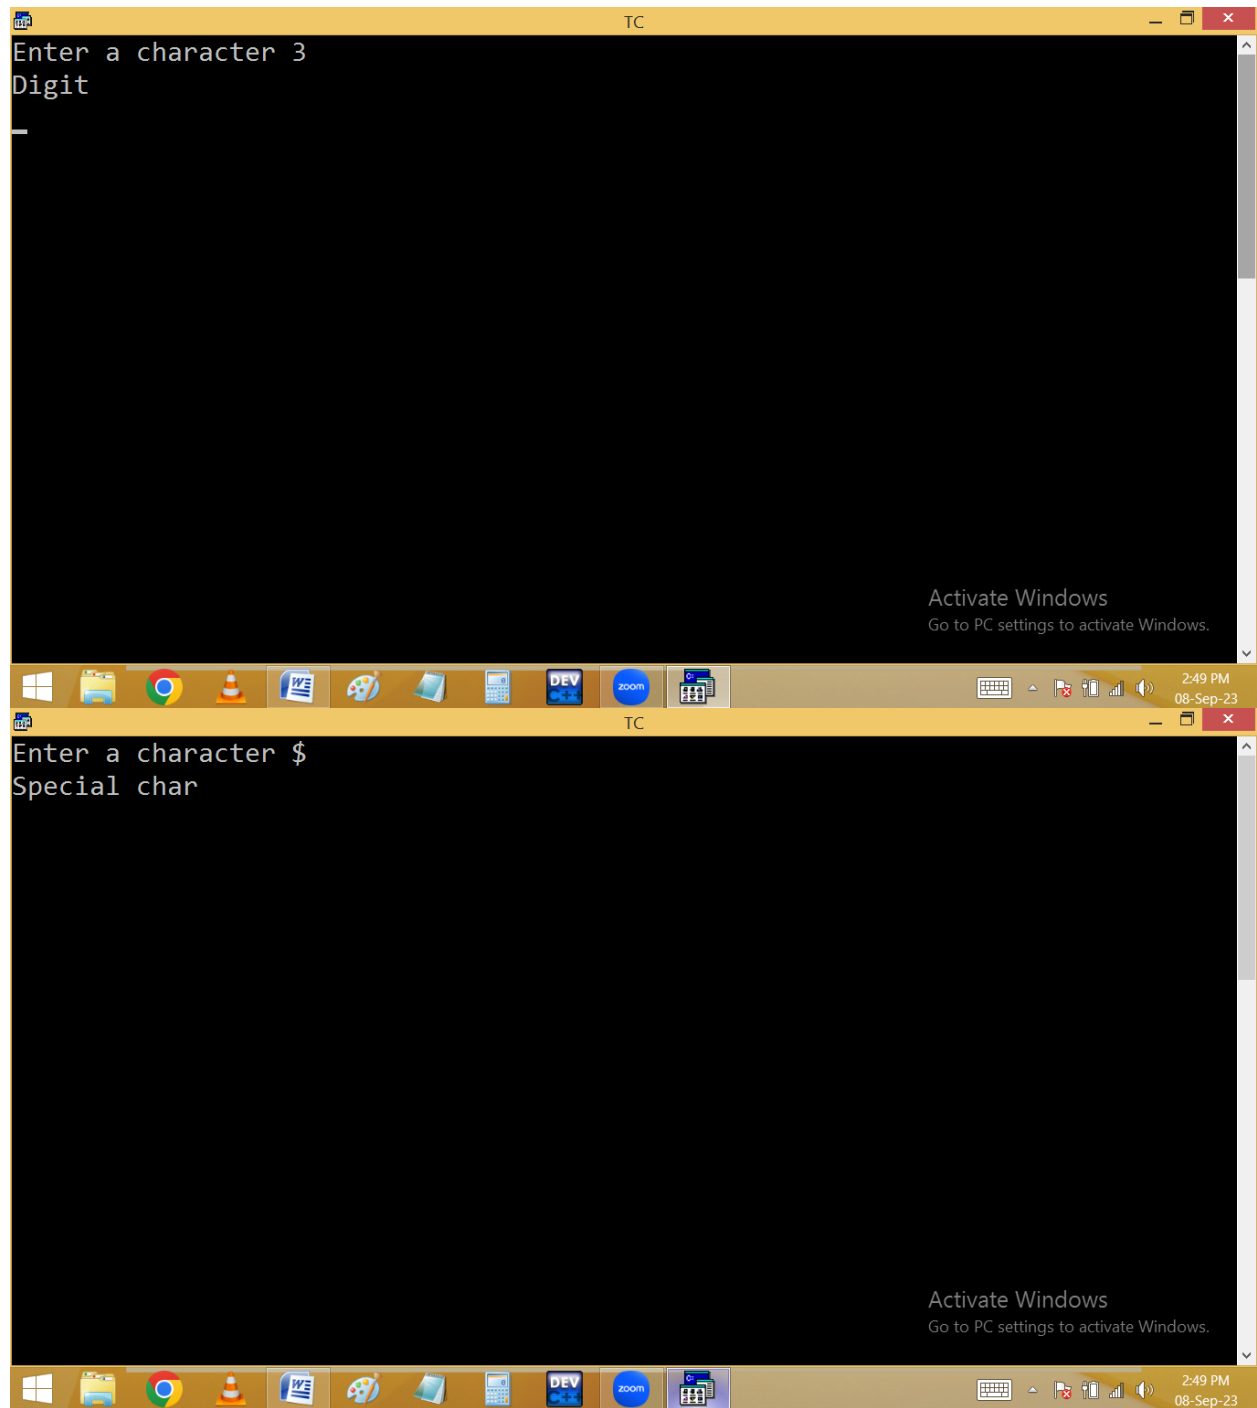

```
TC
Enter a character 9
Not an alphabet

Activate Windows
Go to PC settings to activate Windows.

TC
#include<stdio.h>
#include<conio.h>
void main()
{
char ch;
clrscr();
printf("Enter a character "); scanf("%c",&ch);
if(ch>='A'&&ch<='Z')ch+=32; /* to lower */
if(ch>='a'&&ch<='z')
{
switch(ch)
{
case 'a':case 'e':case 'i':case 'o':case 'u': puts("Vowel");break;
default:puts("Consonant");
}
}
else if(ch>='0'&&ch<='9')puts("Digit"); else puts("Special char");
getch();
}
```

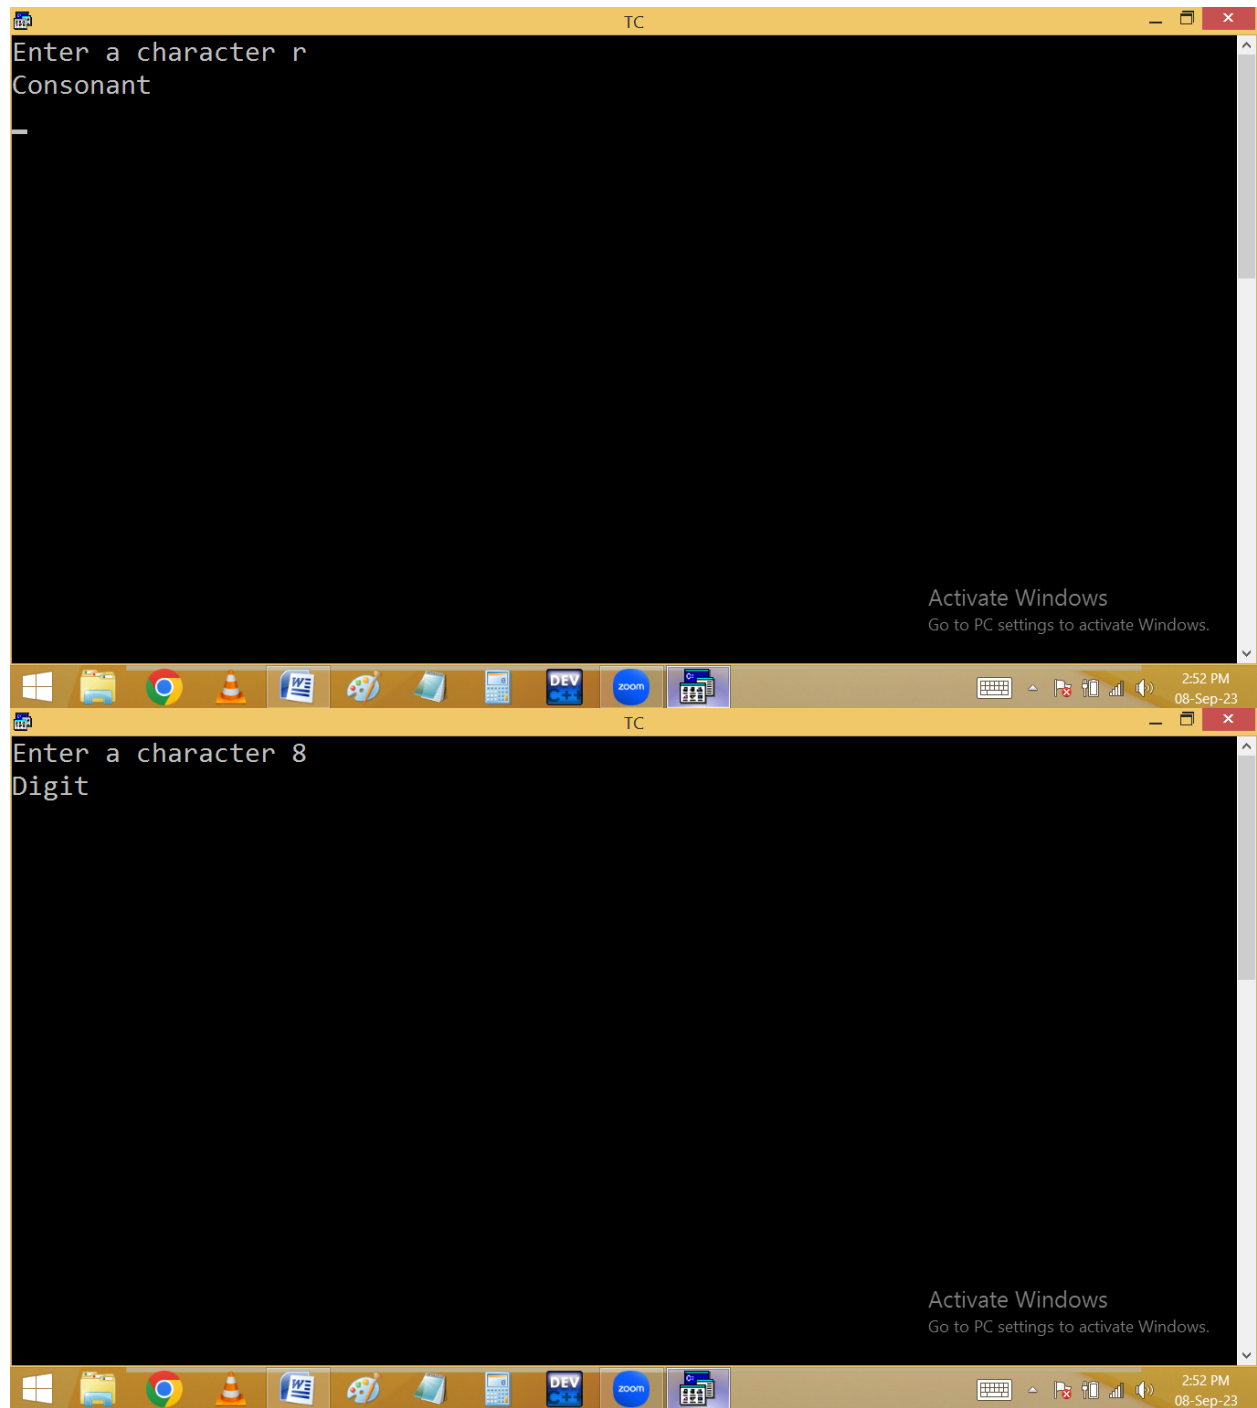

Using predefined functions:

```
TC
#include<stdio.h>
#include<conio.h>
#include<ctype.h>
void main()
{
char ch;
clrscr();
printf("Enter a character "); scanf("%c",&ch); ch=tolower(ch);
if(islower(ch))
{
switch(ch)
{
case 'a':case 'e':case 'i':case 'o':case 'u': puts("Vowel");break;
default:puts("Consonant");
}
}
else if(isdigit(ch))puts("Digit"); else puts("Special char");
getch();
}
```

Enter a character e
Vowel

Activate Windows
Go to PC settings to activate Windows.

2:51 PM
08-Sep-23

Read two numbers and perform all arithmetic operations using menu program with switch.

Enter two numbers 4 5	
M E N U	
+. Add -. Sub *. Mul %. Mod /. Div ^. Pow E . Exit	
Enter Ur option[*]	Mul=20

`#include<stdio.h>`

```
#include<conio.h>
```

```
